**Digital Watchdog®** offers complete enterprise-class video surveillance solutions for analog and IP systems.

**IP Solutions:** **Blackjack E-RACK™ Servers** offer up to 600Mbps throughput and support up to 128 1080p cameras with hot swappable hard drives providing up to 216 Terabytes of total storage. **DW Spectrum™ IPVMS** makes it easy to manage all that power with limitless scalability and unrivaled ease of use. Crystal-clear **MEGApix® IP cameras** now include the world's only **48 Megapixel multi-sensor camera** that delivers unprecedented wide views, plenty of resolution to reveal details and frame rates up to real-time 30fps. **Multi-sensor cameras** allow you to see more from one installation.

**Analog Solutions:** High resolution imaging is now available for analog video surveillance. **STAR-LIGHT™** super low light cameras include **Analog High Definition (AHD)** models and the world's first **multi-sensor 180° view panoramic HD analog camera**. **VMAX A1™ Digital Video Recorders** record all HD analog formats and all analog to 960H.

**Sperry West** is a pioneer in the video surveillance and security industry, developing the first commercial video surveillance kit, the **Video Commander**. Sperry West covert cameras are everyday items that go undercover to get the job done without detection. Their high-quality cameras are discretely built into actual products for complete realism. They have the best image available from a covert video camera. Most covert cameras are available in high-resolution and now available with Wi-Fi.

**Ventra Technology** is an innovative leader in Vehicle Centric, Mobile Video Recording and Fleet Management Solutions. With a primary focus of offering leading edge technology which enhances the overall Safety, Security and Management of vehicle operation and the security of personnel. Ventra combines advanced hardware with powerful, yet intuitive software to easily manage, customize and analyze essential data. Ventra provides comprehensive local and cloud solution that can be easily implemented in Any vehicle, Application or Industry. Ventra – "Safety and Security Through Intuitive Analytics".
